A Note About This Directory

This directory provides a listing of all licensed addiction treatment programs in North Dakota. The programs are listed first by region, then by city. This directory is updated periodically. Visit www.behavioralhealth.nd.gov/addiction/service-locator for the most current version.

Licensing Information

The Department of Human Services’ Behavioral Health Division (BHD) is a policy division responsible for:

- Reviewing and identifying service needs and activities in the state’s behavioral health system in an effort to ensure:
  - Health and safety
  - Access to services, and
  - Quality services
- Establishing quality assurance standards for the licensure of substance use disorder program services and facilities; and
- Providing policy leadership in partnership with public and private entities.

Addiction treatment providers are granted licenses to operate various programs following the levels of treatment defined by the American Society of Addiction Medicine (ASAM). The licensed levels of care in North Dakota are:

- Adult Low Intensity Residential Care
- Adolescent Low Intensity Residential Care
- Adult High Intensity Residential Care
- Adolescent Medium Intensity Residential Care
- Adult Intensive Inpatient Treatment
- Adolescent High Intensity Inpatient Treatment
- Adult Partial Hospitalization/Day Treatment
- Adolescent Partial Hospitalization/Day Treatment
- Adult Intensive Outpatient Treatment
- Adolescent Intensive Outpatient Treatment
- Adult Outpatient Services
- Adolescent Outpatient Services
- Withdrawal Management (Social Detoxification)
- DUI Seminar Program
- Opioid Treatment Programs (OTPs)

Licensed programs are reviewed every other year. Some providers are “deemed status” meaning they are certified through another accrediting body and will be issued a new license valid up to two years based on our North Dakota Administrative Code (NDAC), Article 75-09.1.

The Division also certifies those instructors who teach the DUI Seminar. All potential instructors must complete the Division-approved curriculum offered through the Prevention Research Institute (PRI) and obtain certification. Instructors must then make application with the Division to be certified as an instructor in North Dakota. To remain certified, instructors must teach the DUI Seminar at least twice per certification cycle and attend DUI Seminar Instructor Recertification Training coordinated by the Division once every two years. A listing of licensed DUI Seminar programs in North Dakota is also listed on our web site, as well as a listing of those addiction treatment programs that perform DUI evaluations.
Definitions

**N.D.A.C.:** North Dakota Administrative Code. The Department of Human Services operates under Title 75 of the N.D.A.C., Article 75-09.1 (Substance Abuse Treatment Programs), Chapter 75-09.1-01 (General Standards for Substance Abuse Treatment Programs).

**ASAM:** American Society of Addiction Medicine. North Dakota follows the ASAM Criteria guidelines regarding levels of care to be used in treating alcohol or drug abuse.

**Outpatient Services - Adult ASAM Level 1:** An organized nonresidential service or an office practice that provides professionally directed aftercare, individual, and other addiction services to clients according to a predetermined regular schedule of fewer than nine contact hours a week.

**Outpatient Services - Adolescent ASAM Level 1:** An organized nonresidential service or an office practice that provides professionally directed aftercare, individual, and other addiction services to clients according to a predetermined regular schedule of fewer than five contact hours a week.

**Intensive Outpatient Treatment - Adult ASAM Level 2.1:** Treatment provided to clients requiring a primary, organized treatment program and who can establish abstinence and recovery within the context of the client’s usual environment and daily activities. Normally offered in the evening hours to facilitate a client’s ability to maintain the usual daily activity but may be offered during the day.

**Intensive Outpatient Treatment - Adolescent ASAM Level 2.1:** Treatment provided to clients requiring a primary, organized treatment program and who can establish abstinence and recovery within the context of the client’s usual environment and daily activities. Normally offered in the evening hours to facilitate a client’s ability to maintain the usual daily activity but may be offered during the day.

**Partial Hospitalization/Day Treatment - Adult ASAM Level 2.5:** A substance abuse treatment program that uses multidisciplinary staff and is provided for clients who require a more intensive treatment experience than intensive outpatient treatment but who do not require residential treatment except for ASAM Level 3.1.

**Partial Hospitalization/Day Treatment - Adolescent ASAM Level 2.5:** A substance abuse treatment program that uses multidisciplinary staff and is provided for clients who require a more intensive treatment experience than intensive outpatient treatment but who do not require residential treatment except for ASAM Level 3.1.

**Low-Intensity Residential Care - Adult ASAM Level 3.1:** A substance abuse treatment program that provides an ongoing therapeutic environment for clients requiring some structured support in which treatment is directed toward applying recovery skills; preventing relapse; improving emotional functioning; promoting personal responsibility; reintegrating the individual into the worlds of work, education, and family life; and building adaptive skills that may not have been achieved or have been diminished during the client’s active addiction.

**Low-Intensity Residential Care - Adolescent ASAM Level 3.1:** A substance abuse treatment program that provides an ongoing therapeutic environment for clients requiring some structured support in which treatment is directed toward applying recovery skills; preventing relapse; improving emotional functioning; promoting personal responsibility; reintegrating the individual into the worlds of work, education, and family life; and building adaptive skills that may not have been achieved or have been diminished during the client’s active addiction.

**Social Detoxification (Withdrawal Management) ASAM Level 3.2-D:** "Detoxification" means the process of interrupting the momentum of compulsive use in an individual diagnosed with substance dependence and the condition of recovery from the effects of alcohol or another drug, the
treatment required to manage withdrawal symptoms from alcohol or another drug, and the promotion of recovery from its effects. "Social detoxification" means detoxification in an organized residential, nonmedical setting delivered by appropriately trained staff who provide safe, 24-hour monitoring, observation, and support in a supervised environment for a client to achieve initial recovery from the effects of alcohol or another drug.

**High-Intensity Residential Care - Adult ASAM Level 3.5:** Clinically managed high-intensity residential services means a therapeutic community or residential treatment center that offers continuous observation, monitoring, and treatment by allied professional staff designed to treat clients who are not sufficiently stable to benefit from outpatient treatment no matter how intensive and who have significant psychological and social problems.

**Medium-Intensity Residential Care - Adolescent ASAM Level 3.5:** Clinically managed medium-intensity residential care means a substance abuse treatment program that offers continuous observation, monitoring, and treatment by allied professional staff of individuals with significant psychological and social problems who are not sufficiently stable to benefit from outpatient treatment no matter how intensive.

**Intensive Inpatient Treatment - Adult ASAM Level 3.7:** Medically monitored intensive inpatient treatment means a substance abuse treatment program that provides a planned regimen of 24-hour professionally directed evaluation, observation, medical monitoring, and addiction treatment in an inpatient setting.

**High-Intensity Inpatient Treatment - Adolescent ASAM Level 3.7:** Medically monitored intensive inpatient treatment means a substance abuse treatment program that provides a planned regimen of 24-hour professionally directed evaluation, observation, medical monitoring, and addiction treatment in an inpatient setting.

**DUI Seminar Program ASAM Level 0.5:** Alcohol or drug risk reduction education program for individuals convicted of driving under the influence or actual physical control.

**Opioid Treatment Programs (OTPs) are an effective treatment option for individuals with an addiction to opioid pain medications and/or heroin. Treatment includes on-going assessments by a medical professional, medication monitoring, and addiction counseling by a licensed addiction counselor. OTPs are regulated by both the Federal and State Government.

Recovery Resources and Supports

The Eight Service Regions in North Dakota

North Dakota is divided into eight service regions, with each region having a Human Service Center (see the map on the left). These centers provide help to individuals and families with concerns including family and relationship issues, mental illness, addiction, disabilities, and other needs.

Preference to individuals acquiring addiction services at all Regional Human Service Centers will be given in the following order:

1) Those who are pregnant and inject drugs;
2) Those who are pregnant and abuse substances;
3) Those who inject drugs;
4) All others.
**Region 1 – Williston**
